

Name Jukka Kujanpää

Position Senior Research Scientist

Title Dr.

Gender Male

Dr. Jukka Kujanpää came to FMI in 2001 to work with Metop data on EUMETSAT's Satellite Application Facility on Ozone and Atmospheric Chemistry Monitoring (O3M SAF). Since then, he has been the developer and manager of the operational O3M SAF surface UV product. He acted as the project manager of the O3M SAF in 2006 – 2008. He has also participated in the development and operational processing of the OMI UV product and contributed to several ESA (e.g. GEO-HR, ISOTROP) and nationally funded (e.g. pp-TROPOMI) projects.
